

**YOUR SOURCE  
FOR ENGINEERED  
PROCESS EQUIPMENT**

**Who we Are**

Industrial equipment distributor and manufacturer representative serving Wisconsin and Michigan's Upper Peninsula.

**Industries we Serve**

- Dairy & Cheese
- Food & Beverage
- Pharmaceutical
- Power Generation
- Water & Wastewater Treatment
- Pulp & Paper
- Chemical
- System Integrators & Skid Builders
- Mining & Ore Processing

**Why Choose Us?**

Process equipment is in our name, it is all that we do. We consider ourselves as an extension of our customers' engineering team. We are experts in the products we offer.

You can rely on us to assist in selecting custom engineered equipment with speed to deliver a total solution.

We are a prominent distributor specializing in sanitary and industrial equipment. Our comprehensive range includes pumps, vacuum pumps, mixers, direct steam injection heaters and water treatment systems. We also offer supporting engineered process equipment.

Founded in 1992, our mission is to cater to the needs of various industries in Wisconsin and Michigan's Upper Peninsula. We take pride in delivering value-added solutions to our customers, offering custom-engineered products that seamlessly adapt to liquid, slurry, or vacuum applications. Our corporate headquarters is located in Amherst, WI.
